BORN AROUND A BRAAI. BUILT FOR GOOD TIMES.

One afternoon, while spending time with friends and family, we noticed something. The food was great, the company was great, but after a while everyone seemed to drift into the same routine. Phones came out, conversations slowed down and the energy started to fade.

We realised something was missing.

That's where Lekka Games Co. was born.

Our handcrafted wooden games are designed to create laughter, spark friendly competition and turn ordinary gatherings into unforgettable memories.
